

## Acacia

# 'Fettuccini'<sup>®</sup>

### LUSH DECORATIVE FOLIAGE

**Origin:** Mt Gambier, Australia

**Species:** *Acacia cognata*

**Protection Status:** PBR protected

Full sun

Part shade

Height 75cm

Spread to 1.2m

## Features:

- Compact form - tight, mounded weeping habit
- Outstanding decorative foliage - rippled appearance in fresh lime green colour with coppery tinted new growth
- Year round ornamental value
- Dry tolerant
- Easy to grow with minimal maintenance
- Australian native

## Suggested Uses:

- Can be mass planted as well as for garden or tub specimen
- Small gardens, patios and courtyards
- Year round interest for general garden use
- Native, exotic, oriental or tropical style garden designs

## Water Requirements:

Low. Once established, quite dry tolerant requiring only occasional deep watering during extended periods of heat.

## Care:

Plant in most soil types that are well draining. Pruning generally not required. Feed in spring with a native formulated fertiliser for best results. Will tolerate light frost.
