

Acacia

'Green Mist'[®]

ORNAMENTAL WEeping FOLIAGE

Origin: Victoria, Australia

Species: *Acacia cognata*

Protection Status: PBR protected

Full sun

Full sun/Part shade

Height 1-2m

Spread 2m

Containers

Features:

- Attractive weeping foliage for year round interest
- Soft lemon coloured flowers during spring
- Fast growing
- Easy to grow with minimal maintenance
- Australian native

Suggested Uses:

- Attractive focal point in any garden
- Large containers
- Effectively spills over retaining walls and rockeries
- Low borders and informal hedges

Water Requirements:

Low. Once established, quite dry tolerant requiring only occasional deep watering during extended periods of heat.

Care:

Plant in a full sun to part shade location, in any well drained soil. If planting in tubs, select a quality potting mix for optimum results. Container plants will benefit from an annual application of slow release fertiliser.
