

## Adenanthos

# 'Silver Lining'

Commonly known as the Albany Woolly Bush

### STRIKING NATIVE GROUNDCOVER

**Origin:** South Australia

**Species:** *Sericeus*

**Protection Status:** PBR protectable

Full sun

Height  
40cm

Spread  
1.5m

Ground  
cover

Dry  
tolerant

Australian  
Native

## Features:

- Attractive native ground cover, with compact spreading form
- Fine, silvery grey foliage
- Soft appearance and soft to the touch

## Suggested Uses:

- Foliage accent - silvery tones are a great colour contrast in the garden
- Excellent native ground cover
- Well suited to dry conditions
- Hardy performer in coastal habitats

## Water Requirements:

Very low once established. Prefers dry summers rather than a humid climate.

## Care:

Very low maintenance. Plant in a full sun location with good airflow and a well drained soil.
