

Euphorbia 'Silver Swan'[®]

STRIKING FOLIAGE

Origin: United Kingdom

Species: *Euphorbia characias* ssp.
wulfenii x *Silver Swan* 'Wilcott'

Protection Status: PBR protected

Full sun

Height 75cm

Spread 75cm

Drought tolerant

Features:

- Distinct and unique variegated foliage of grey-green with silvery edging year round.
- Spikes of creamy coloured flowers produced from late winter through spring
- Compact growth habit
- Tolerant of extreme heat and dry conditions

Suggested Uses:

- Stunning container displays
- Water wise and Mediterranean style gardens
- Coastal gardens
- Dry or gravel style gardens or xeriscaping
- Year round interest and structure

Water Requirements:

Dry tolerant once established, requiring only occasional deep watering during extended periods of heat.

Care:

Plant in most soil types that are well draining. Feed in spring with a slow release fertiliser according to manufacturer's directions. If pruning, take care to avoid contact with sap.
