

HELLEBORE

'ANGEL GLOW'

INDOORS FOR A MOMENT...
OUTDOORS FOR A LIFETIME

'Angel Glow' is a known garden performer. Hellebores have been available for many years, but this new generation of breeding has increased flower power, improved garden performance and they are recognised for their easy-care habits. The flower buds of 'Angel Glow' start off a shade of dark pink and open to a stunning light pink with a lime green centre. 'Angel Glow' will make a stunning addition to any garden. Enjoy the flowers indoors, either cut or as a pot plant for up to 3 weeks* before planting in the garden.

FEATURES

- Delightful pink buds burst into light pink flowers
- Long flowering
- Vigorous evergreen perennial with a tidy growth habit

USES

- Elegance and style for shady nooks
- Plant under established tree canopies
- Containers or garden beds

CARE

Plant in any soil that is well draining. Tidy after flowering by removing old flower heads. If growing in containers or full sun, care should be taken not to allow to dry out completely. For best results, feed in late autumn and spring with a slow release fertiliser before and after flowering.

*Performance indoors will vary due to conditions within each environment.

ORIGIN: Netherlands // **SPECIES:** *Helleborus hybrid* // **PROTECTION STATUS:** PBR Protectable
