

## Plectranthus 'Plepalila'<sup>(b)</sup> **'Mona Lavender'**

### COLOUR FOR SHADY AREAS

**Origin:** South Africa – From the famous Kirstenbosch Botanical Gardens

**Species:** *Plectranthus* sp.

**Protection Status:** PBR protected

Full sun/part shade

Full shade

Height 80ccm

Spread 60cm

### Features:

- Lavender coloured flower spikes from late summer through autumn
- Ornamental foliage – deep green leaves with dark purple undersides
- Attractive neat, low shrub with an upright habit. Does not spread like other members of this family

### Suggested Uses:

- Ideal for low light positions in the garden
- Undercover entertainment areas and colour underneath decks
- Place around shaded water features
- Borders for shady paths or driveways

### Water Requirements:

Low. Prefers a moist, well drained soil.

### Care:

Choose a shaded to semi-shaded protected location. Protect from frosts and very low temperatures. A light pruning after flowering will help maintain a neat shape and encourage dense foliage growth.
