

ANISODONTEA 609-3

# AFRICAN ROSE 'DAYO'

SUPER-SIZED BICOLOURED FLOWERS

A Cape Mallow bred to perform. The product of a lengthy breeding program by the team at PGA Innova Bred with the dual aims of larger flowers that display for longer, this is an exciting new introduction. With a compact habit that is suited to high-impact courtyard and patio gardens, combined with the large bicoloured bright pink flowers with dark centres, this plant is bound to win favour with new gardeners looking for flower power and experienced gardeners with an eye for quality.

## FEATURES

- Large bicoloured bright-pink flowers
- Long-lasting flowering from spring to autumn
- Fast growing for speedy impact
- Attracts butterflies and garden pollinators
- 'Clippable' for topiary and hedging

## USES

- A fine plant for containers and feature planting
- Spectacular flower colour show for borders and path edges
- Water wise and sunny gardens
- High impact low hedges and topiary
- Coastal balconies, gardens and landscapes

## CARE

Low to medium water requirements. Tolerates dry spells but will appreciate a soak during extended dry periods. Protect from Flea Beetle. Fertilise in late winter for optimum results

**ORIGIN:** Victoria, Australia // **SPECIES:** Anisodonteia hybrid // **PROTECTION STATUS:** PBR Protectable
