

Dreameria®

dream clouds

The DREAMERIA® series is an easy to grow collection of no fuss garden plants bred in Australia for real impact throughout the year. With masses of dreamy-white globeshaped flowers from winter to late spring sitting atop shapely evergreen mounds of foliage, 'Dream Clouds' is an outstanding garden and container performer. Bred for their hardiness and repeat flowering abilities throughout the year. Look out for the other DREAMERIA® varieties within the collection.

FEATURES

- Pure white flowers
- Upright flower stems
- Short flowers stems
- Rounded flower heads
- Main flush of flowers in winter and spring
