

AGAPANTHUS

'GOLDEN DROP'

DWARF GREEN AND
GOLD FOLIAGE

Agapanthus 'Golden Drop' is an ultra compact selection, with narrow variegated foliage. Its light sky blue flowers consistently appear through the spring and summer period. The flowers sit above the foliage to a height of about 40cm. 'Golden Drop' is a low maintenance, hardy variety, and well suited to a variety of conditions.

FEATURES

- Ultra compact habit with narrow variegated leaf
- Sky blue flowers consistently appearing through spring and summer
- Low maintenance hardy variety
- Flowers sit high above the foliage to about 40cm
- Variegated form of 'Streamline'

USES

- Soften the edge with a mini hedge, between paving and a garden bed
- Great to plant underneath other plants in a large container instead of using mulch
- Performs in difficult to grow locations in full sun - coastal gardens
- Suitable for both formal and informal gardens
- Agapanthus are also good cut flowers for the home

CARE

Very low water requirements. Dry tolerant once established. This easy care variety has no specific requirements. Remove old flower stems once they have finished to encourage repeat flowering. Alternatively, leave old stems throughout winter for structural interest in the garden.
