

CORREA

'CANBERRA BELLS'

OFFICIAL PLANT OF THE
CENTENARY OF CANBERRA

In 2013, the nation's capital celebrated its centenary, and the beautiful Correa 'Canberra Bells' was chosen to commemorate this important national occasion. 'Canberra Bells' sports masses of attractive bell shaped flowers with contrasting two-toned red and cream colouring, and is in full bloom for Canberra's birthday each year – 12th March. It's an Australian bred plant suitable for both native style gardens, and those with a Mediterranean or water wise theme as it has very low water requirements once established.

FEATURES

- Stunning two-tone red and cream bell-like flowers
- Colour for autumn
- Hardy - dry and frost tolerant
- Australian native

USES

- Native and water wise gardens
- Long lasting colour for the autumn period
- Mixed garden beds
- To celebrate the 2013 Centenary of Canberra

CARE

Low water requirements. Will tolerate periods of dryness, however occasional deep watering is recommended through extended periods of drought. Prune lightly after flowering. Keep soil moist during flowering for maximum displays.
