

COPROSMA

'CHAMELEON'

WATCH ME CHANGE COLOUR

When it comes to foliage colour, there are few plants that can match the impact of Coprosma 'Chameleon'. From golden yellows to deep oranges and crimson reds, this compact and hardy mirror bush packs a powerful punch. A versatile and easy-care plant that commands attention on the garden centre shelves and in the garden, this exceptional selection is a cut above the pack.

FEATURES

- Amazing leaf colour that provides ever-changing seasonal interest
- Glossy and disease-free foliage
- Year-round compact form requiring little to no pruning
- Tough garden shrub that thrives in sun and part shade
- Easy-care plant with exceptional foliage display

USES

- Ideal for coastal gardens
- Can be clipped for hedges and topiary
- Spectacular flower colour show for borders and path edges
- Water wise and sunny gardens
- High impact low informal hedges
- Patio pots and garden highlights

CARE

Drought tolerant once established. Grows well in most soil types which are well draining. Apply a slow release fertiliser during early spring for best results. No real need for pruning.
