

DAPHNE X TRANSATLANTICA

'ETERNAL FRAGRANCE'

STRONGLY PERFUMED • REPEAT FLOWERING • SUN HARDY

A must have plant! 'Eternal Fragrance' is an awarding winning Daphne suitable for a variety of garden applications. You will be rewarded with sweetly fragrant flowers on the deep green to fresh lime foliage on repeated occasions throughout the year. First flush in late Winter and then in early summer and again in Autumn. Unlike other Daphnes, 'Eternal Fragrance' will thrive in a full sun position but will also perform in semi shade. A truly outstanding garden and pot performer, proven by over 30 years of development with results that speak for themselves.

FEATURES

- Exquisite fragrance
- Repeat flowering -outstanding display in spring with continuing spot flowering throughout the year
- Frost hardy. Heat and dry tolerant – performs in sunny sites without scorching

USES

- Stunning low perfumed hedge or border
- Small gardens, patios and courtyards
- Underplant beneath open tree canopies
- Containers

CARE

Low water requirements. Once established requires only occasional deep watering during periods of extended heat. Plant in a well-drained position which is critical for success with any Daphne. For optimum results, lightly trim and feed with a slow release fertiliser in summer to maintain shape and vigor. Tolerant of both acid and alkaline soil types.

ORIGIN: United Kingdom // **SPECIES:** *transatlantica* // **PROTECTION STATUS:** PBR Protected
