

DIETES

'WHITE TIGER'

DRY TOLERANT

Dietes 'White Tiger' is the ultimate landscape solution. It offers outstanding ornamental foliage year round in a striking green and cream variegation. Thriving in those hard to plant hot and dry spots in the garden, it is the perfect choice for gravel style gardens and challenging to plant arid zones.

FEATURES

- Ornamental foliage year round – cream and green variegation
- White iris-like flower with yellow throat markings will spot display throughout the year
- Tight, clump forming habit
- Easy to grow with minimal maintenance
- Frost hardy and dry tolerant once established

USES

- Plant en-masse for dramatic landscape effects
- Superb plant for roadsides, verges, parks and gardens
- Small gardens, patios and courtyards
- Fast results for new gardens
- Striking container displays
- Ideal for filling in narrow spaces along fence lines and paths

CARE

Very low water requirements. Very dry tolerant and thrives in dry conditions. Plant in most soil types that are well draining. Pruning generally not required. Feed in spring with a slow release fertiliser for optimum results.

ORIGIN: Discovered by a Western Australian nurseryman
