

Euphorbia

'ASCOT RAINBOW'

STRIKING FOLIAGE

One of the world's most recognised and grown variegated commercial Euphorbia varieties. Hardy, adaptable and intriguing. This outstanding selection from a true Australian plantsman David Glenn, is famed for its striking and consistent variegation, exquisite flowers and the versatility many plants just can't match. 'Ascot Rainbow' has been grown from freezing temperatures to 45 degrees centigrade. A great garden or container specimen.

FEATURES

- Foliage displays tones of cream and green-blue with stunning red-pink colouring throughout cooler months
- Spikes of flowers in a blend of cream, lime and green appear from late winter through early spring
- Compact growth habit
- Tolerant of extreme heat and dry conditions

USES

- Stunning container displays
- Water wise and Mediterranean style gardens
- Coastal gardens
- Dry or gravel style gardens or xeriscaping
- Year round interest and structure

CARE

Dry tolerant once established, requiring only occasional deep watering during extended periods of heat. Plant in most soil types that are well draining. Feed in spring with a slow release fertiliser according to manufacturer's directions. If pruning, take care to avoid contact with sap.

CAUTION: Harmful if eaten/skin & eye irritant
