

EUPHORBIA

'SILVER SWAN'

STRIKING FOLIAGE

Euphorbia 'Silver Swan' boasts striking, architectural variegated foliage of grey-green tones highlighted with silvery edging year round. Evergreen and hardy without any special needs, 'Silver Swan' will add structure and interest to any setting. From late winter through to spring, stunning displays of creamy coloured flower spikes cover the plant.

FEATURES

- Distinct and unique variegated foliage of grey-green with silvery edging year round.
- Spikes of creamy coloured flowers produced from late winter through spring
- Compact growth habit
- Tolerant of extreme hot and dry conditions

USES

- Stunning container displays
- Water wise and Mediterranean style gardens
- Coastal gardens
- Dry or gravel style gardens or xeriscaping
- Year round interest and structure

CARE

Plant in most soil types that are well draining. Feed in spring with a slow release fertiliser according to manufacturer's directions. If pruning, take care to avoid contact with sap. Dry tolerant once established, requiring only occasional deep watering during extended periods of heat.

*CAUTION Harmful if eaten.
Skin and eye irritant.*
