

HELLEBORUS

'CINDERELLA' [®]

'Cinderella' is an outstanding new variety with exceptional novelty. An abundance of multi petalled flowers of white with speckled pink features are a highlight throughout the winter months when colour in the garden can be hard to find. A superb performer in containers, garden beds or planted on mass. A wise and rewarding choice for those shady areas. Enjoy indoors, either as cut flowers in a vase or as a potted plant for up to 3 weeks* before planting in the garden.

FEATURES

- Multi petalled flowers of white with speckled pink features
- Flowers with a unique dome shape
- Vigorous evergreen perennial with a tidy growth habit

USES

- Add elegance and class to any shady nook
- Plant under established tree canopies
- Beautiful container displays
- Garden beds

CARE

Plant in any soil that is well draining. Tidy after flowering by removing old flower heads. If growing in containers or full sun, care should be taken not to allow to dry out completely. For best results, feed in late autumn and spring with a slow release fertiliser before and after flowering.

*Performance indoors will vary due to conditions within each environment.

ORIGIN: Europe // **SPECIES:** *Helleborus orientalis* hybrid // **PROTECTION STATUS:** PBR Protected
