

HELLEBORUS

'MOLLY'S WHITE'

With delightful cup-shaped white blooms adorning this beautiful Hellebore throughout winter and early spring, 'Molly's White' is destined to become an essential addition to any semi-shaded border or container. Beautiful green flushing and a dusky pink reverse to each petal make 'Molly's White' a simple yet opulent statement plant that would be an unbeatable indoor specimen for up to three* weeks during its extended flowering time. Upon planting outdoors it is a valuable, easy-care evergreen that will continue to delight well after the last blooms fade.

FEATURES

- Beautiful white flowers with blush pink tones from winter to spring
- Long flowering period
- Vigorous evergreen perennial with a tidy growth habit

USES

- Elegance and style for shady nooks
- Plant under established tree canopies
- Containers or garden beds

CARE

Plant in any soil that is well draining. Tidy after flowering by removing old flower heads. If growing in containers or full sun, care should be taken not to allow to dry out completely. For best results, feed in late autumn and spring with a slow release fertiliser before and after flowering.

*Performance indoors will vary due to conditions within each environment.

ORIGIN: Netherlands // **SPECIES:** Helleborus hybrid // **PROTECTION STATUS:** PBR Protected
