

HEBE

# 'SNOW DRIFT'

CASCADING WHITE FLOWERS

*Covered in showy white flowers from spring to the end of summer, this hardy garden shrub is a real performer. Throw all the elements at it and Snowdrift will bounce back with glossy green leaves, eye-catching white flowers and a neat shape that fits in well with evergreen shrubs and flowering perennials, just sit back and watch the show!*

## FEATURES

- Prolific display of cascading white flowers from summer through to autumn
- Fast growing, easy care, compact evergreen shrub
- Outstanding dry tolerance

## USES

- Year round structure in mixed borders
- Hedging and large containers
- Poolside landscape and coastal zones
- Low maintenance areas

## CARE

Low water requirements. Dry tolerant once established. Requires only occasional deep watering during extended heat. Hardy in most soil types which are well draining. Prune by one third after flowering to encourage a dense habit. Apply a slow release fertiliser at the same time for optimum results.

**ORIGIN:** New Zealand // **SPECIES:** *Brachysiphon*
