

HEMEROCALLIS

'STELLA ROUGE'

FIERY-RED DWARF DAYLILY

A warm red flowering new Daylily bred from the popular Daylily 'Stella Bella'. Compact and clean leaves coupled with the abundant and recurring fiery-red lily-like flowers give this selection all the attributes of a fine garden plant. Planted in the ground in small clusters, or en-masse as wide drifts, this Daylily deserves a spot in any garden.

FEATURES

- Dwarf habit with flowers proud of the foliage
- Evergreen selection
- Fast growing plant that has a quick impact
- Repeat flowering with a spring and autumn peak

USES

- Low maintenance cottage garden plant
- Flower borders and perennial gardens
- Easy-care containers and patios
- Showy ground cover

CARE

Low water requirements once established, will perform best with summer irrigation and well-prepared soil. A light tip-prune after flowering will keep the plant neat and tidy and encourage good flowering the following season. **CAUTION:** Harmful if eaten
