

LAVANDULA PEDUNCULATA

'LAVENDER LACE'

EARLY FLOWERING

An exceptionally early-flowering Lavender that features large soft-lilac flowers that create a splash of colour when little else in the garden has come to life. This plant has a tight compact habit, aromatic grey foliage and bears its flowers on stems that sit proudly above the plant. A wonderful addition to modern cottage flower gardens and pot displays alike.

FEATURES

- Early flowering fragrant lavenders
- Flowers in varying shades of purple from intense deep hues to mild lilac tones.
- Bred in Australia and selected for their lengthy flowering season.
- Neat compact habits and aromatic grey foliage

USES

- Ideal for paths, entrance ways and entertainment areas where the winter colour can be appreciated
- Low hedging
- Waterwise gardens
- Containers

CARE

Plant in a sunny location in well draining soil. Clip back to two thirds of its size in late summer to maintain shape and vigour. After pruning an application of fertiliser and a light sprinkling of dolomite lime over soil would be beneficial.

ORIGIN: Victoria, Australia // **SPECIES:** A *Lavandula* hybrid // **PROTECTION STATUS:** PBR protected
