

LAVENDER

# 'LITTLE POPPET'

ULTRA COMPACT  
ENGLISH LAVENDER

All the flower impact and sun-tough drought tolerance of traditional English Lavender, but with a TRULY DWARFING HABIT! The perfect home garden Lavender for small cottage gardens, high-impact colour pots, window boxes and companion planting around vegetable and cottage gardens. Cut the flowers in mid-summer and harvest your own sweetly fragrant lavender for teas and potpourri.

## FEATURES

- Ultra-compact form for pots and the garden
- Beautiful rich-purple flowers displaying in early summer
- Neat and easy to manage grey-green foliage
- Super drought tough for low maintenance gardens

## USES

- A perfect plant for containers and small cottage gardens
- Makes a wonderful low-growing flowering hedge
- High impact garden bed flowering perennial
- Companion planting around vegetable gardens

## CARE

Very low water requirements requiring a good soak only in hot spells. Cut back foliage to a neat ball in autumn to maintain neat shape. Fertilise in late winter and autumn for optimum results.
