

LAVANDULA PEDUNCULATA

'WITH LOVE' 

LONG LASTING DISPLAY

Another wonderful result of Australia's renowned Lavender breeding programme, Lavandula 'With Love' is a uniquely compact Lavender, with delightful pink flowers in late winter held just above its grey aromatic foliage - making it one of the most versatile Lavenders available today. Perfect for containers, courtyard or cottage gardens, 'With Love' also boasts fabulous disease resistance and is drought and heat tolerant. Why not consider it for a low hedge or a stunning, deliciously scented mass planting? And of course, Lavandula 'With Love' would also make the ideal gift for someone special. If you can bear to give it away!

FEATURES

- Prolific flowerer with long lasting pink displays
- Outstanding display from late winter that continues in flushes throughout the year
- Flowers held tightly just above the foliage
- Compact, mounded habit. Disease resistant

USES

- Aromatic hedging (space at intervals of 50cm)
- Cottage style gardens
- Containers – colour and fragrance
- Can be moved indoors for up to 2 weeks

CARE

Plant in a full sun location in well drained soil. A light prune after the main flowering flush will encourage further flowers. An application of slow release fertiliser during spring will be beneficial.

Low water requirements. Dry tolerant once established.
