

Bob Magnus

'MAGNUS SUMMER SURPRISE'®

The bright and shiny skin of this vibrant red apple would be enough to tempt the likes of Cinderella and Eve, but the outside is but the beginning! Bite into the rose-red skin to reveal the deep-pink coloured flesh inside, so remarkable you will think you're in a fairy-tale. Requiring no extra attention or special care, this astonishing coloured apple will amaze you and your friends. Imagine the wonderful culinary creations you can make with this unique and novel apple.

FEATURES

- Deep-pink coloured flesh
- Rose-red fruit that follows purple/pink spring blossom
- All parts of the tree, including flowers, branches and fruit and even juice (!) have red-purple colouring
- Early fruiting variety with fruit ripening in Jan-Feb
- Pollinate with Jonathan, Granny Smith, and other mid-season flowering varieties

USES

- Perfect for espalier
- Home orchard tree
- Crisp and sweet eating apple ideal for home gardens
- Cider making apple

CARE

Prune young trees to create an open canopy of strong branches that can support heavy future crops. After 3-4 years, prune lightly in summer to keep the tree to a manageable size. Fertilise in spring and autumn and provide supplementary irrigation in summer.
