

MAGICAL DAYBREAK™

Nandina domestica 'Monfar'

COLOURFUL COPPER TONED NEW FOLIAGE

This exciting new evergreen shrub will be an outstanding, low care and easy to grow addition to any garden. The fresh green year round foliage is highlighted by new young leaves of copper toned foliage. MAGICAL DAYBREAK™ also produces white flowers above the foliage during summer to add even more interest and decorative value. A fabulous addition to its partner, MAGICAL LEMON LIME™.

FEATURES & USES

- Compact, evergreen form with a bushy growth habit
- Extremely versatile and tolerant of a wide range of growing conditions
- Single garden specimens for small gardens
- Decorative containers for decks and patios
- Informal hedging and mass planting

CARE

Water requirements are medium once established. Prefers a moist, well drained soil. No pruning required.
