

TELOPEA HYBRID

'ESSIE'S GIFT'

AMAZING COLOUR

“Over a lifetime Essie Huxley hand carved a beautiful garden atop a lone ridge on the quiet rim of the world. A passion for beauty, peace and botanical wonders led to this humble Tasmanian being crowned the world's leading Waratah Woman and inspiring 'A Waratah Affair'.”

FEATURES

- A unique low growing, compact form of waratah
- Stunning impact created by beautiful deep pink flower heads
- Prolific displays of blooms held on short arching stems throughout spring

USES

- Spectacular low growing displays of bright colour
- Make a statement with an unusual low native hedge
- Perfect for medium to large containers
- Enjoy indoors in cut flower arrangements

CARE

Low water requirements once established. Provide deep soaks during periods of extended heat. Enjoys most aspects but protect from harsh westerly exposure. Thrives in fertile well drained soils. Prune by one-third after flowering to maintain shape and vigour and to encourage further flowering flushes. An application of slow release fertiliser formulated for natives in autumn and early spring is beneficial.

ORIGIN: NSW, Australia // **SPECIES:** *Telopea hybrid* // **PROTECTION STATUS:** PBR Protected
